In observance of the Jewish Arbor day, the Norwich Hebrew institute held examinations on Tuesday evening, and it was proved how Hebrew can be brought back to the Jewish youth as a living language. The school is prac-ticing the natural system of teaching the Hebrew language as any modern life language for the last half year infe language for the last half year and they have received already a good reward, as the system has proven a most efficient one. As one of the teachers expressed himself Tuesday night, the Hebrew spirit of their literature is coming to the Jewish children and the flowers. This fact was as dew on the flowers. This fact was revealed when the children were carefully examined by Rabbi Joseph Rosenberg, Rabbi B. Davidson, Rabbi Max Stamm and the remainder of the board of education. In Trains Into Terminals On Time.

The following record of passenger trains running in the state of New York is taken from the official reports of the months of August, September, October, November and December, 1916. The record indicates clearly that data all railroads are having difficulty in bringing trains into terminals on time. There are many reasons for this, Among them are:

1. An effort is being made to give faster service in many places before the facilities of the roads are properly adjusted.

2. The roads, as a whole are attempting to do business for 100,000, 100 people with facilities in many cases adjusted to a population of 90,000,000 people.

3. Trains are gradually getting heavier and heavier as steel car equipment is forceased.

#### THAMES RIVER BRIDGE. Unanimity of Sentiment in Favor the Toll System.

The committee on roads, bridges and rivers, Senator MacDonald, chairman, gave public hearing Tuesday afternoon for the reconstruction of the Thames River rilroad bridge for use as a highway bridge. Provision is made in the bill that the highway commissioner be authorized to reconstruct the bridge, at a cost not to exceed \$450,000. The commissioner is also authorized to purchase land for approaches. It is also provided that the bridge be operated as a toll bridge for a period of twenty years, and be opened as are the bridges over the Connecticut river. Provision is also made for the equipment of trolley tracks. No part of the appropriation to be expended until the state shall have recorded a deed of the bridge from the New York, New Haven and Hartford Railroad company. Mayor Ernest E. Rogers, of New London, gave a brief history as to the origin of the state accepting the bridge from the railroad company, and now the question as to the financing of the Bennett, highway commissioner, has reconstruction of the bridge. Mr. Bennett, highway commissioner, has given two methods of reconstruction, and the cost, and method of operations. The chamber of commerce are in favor of Mr. Bennett's second method, which provides for a toll bridge, as specified in the bill. Half an hour ago specified in the bill. Half an hour ago the commission of rivers, bridges and harbors, met with the governor, and the commissioners are unanimously in favor of the toll bridge plan, which is the favorable opinion of all in the vicinity of the bridge.

Tyler Lamphere, resident of the boroogh of Groton, spoke of the absolute need of a highway bridge. At a meeting of the wardens and burdesses

Former Senator Hewitt, of Mystic, said if the bill goes through he will help pay for the maintenance as he goes to New London by automobile daily. It would not be fair for New London and Groton to bear the burden

Senator Hemenway, of Hartford, favored the bill, and said there was no question but public sentiment favored the reconstruction of the bridge and Gulliver of Norwich. John C.
